VISION

Glacier Ridge is an 832-acre community with over 6,000 homes planned, settled in Calgary's prestigious Northwest. Framed by views of the Rocky Mountain Foothills and distinguished by the natural coulees that cross its land, Glacier Ridge offers a rare chance for families to live in a new community that feels nostalgic.

Proud monuments welcome your arrival and preview a cohesive vision that is carried throughout the community. Elevated entry landscaping flows onto tree-lined streets featuring craftsman, prairie and mountain inspired homes built by Western Canada's top home builders. From first time home buyers to those looking for their forever home, Glacier Ridge offers everyone a place to call home.

At Glacier Ridge's heart is the central Resident's Association Village, adding to the community's vision of being an enviable destination. Within the village, the outdoor recreation arenas encourage families to perfect their sport, and the communal fire pits light the stage for the next generation of storytellers. Neighbourhood parks are designed to be inclusive for family members of all ages, stages, and abilities, as well as four legged friends. Over 10 km of trails pattern across the greater community, connecting families to Glacier Ridge's four elementary and middle school sites, a high school site as well as the abundant shopping, retail and work amenities nearby.

Glacier Ridge is the forever community that families in Calgary are waiting for. Timeless features and thoughtful amenities offer themselves as a backdrop where old traditions can continue and new traditions can be made. A once in a lifetime community rooted in culture and built on pride.

OVERALL PLAN

FREQUENTLY ASKED QUESTIONS

How many homes will be in Glacier Ridge?

At build out, Glacier Ridge will have over 4,000 single family homes, 1,800 multifamily homes and over 18,000 residents.

What is the expected completion time frame for Glacier Ridge?

Glacier Ridge is anticipated to develop over a 15-year time frame.

Will there be a Homeowner Association in Glacier Ridge?

There will be a Residents Association with a Residents Association at the heart of the community.

For more information, visit our RA page. (Internal link to RA page).

What is the difference between a Community Association and a Resident Association?

A Community Association is a voluntary organization formed by residents of an area to:

- Manage and direct its social and recreational activities (i.e. kids community soccer)
- Act as an intervener in civic matters (planning and development)
- Plan, develop and maintain community facilities and amenities

A Resident Association is a compulsory organization created by a land developer to:

- Manage and maintain community amenities (entrance signage, ornamental parks and ponds, boulevard landscaping and building) that the City will not maintain
- Membership in a Resident Association is compulsory, and the annual fee is collected by the association through a caveat on title.

Do I get a fence included with my home?

Glacier Ridge will feature four types of fencing that will be installed on certain lots within the community. In all cases, the Surface Information Plan will clearly depict which residential lots in the community will have which type of fencing installed and on which property lines. Surface Information Plans are available in all sales centres. Please ensure you discuss and confirm with your sales representative if there will be any fencing installed on a lot you are interested in and that you understand what it means for you as the future owner of this lot.

There are four types of fences that may be installed on residential lots in the community and some lots that will not receive any fence as detailed below:

1. **Developer Fencing Program** - For residential lots that share rear property lines and for lots that side onto roadways (i.e. corner lots) the Developer will construct and provide a wooden fence to the resident. This fence is included with the lot. Rear property line fences will be 1.8m and the fencing material and design is governed by the Glacier Ridge Architectural Guidelines. The Developer Fence Program is then passed over to the resident(s) for private ongoing maintenance and care.
2. **Municipal Reserve and Municipal School Reserve Fencing** - All residential lots that share a property line with a municipal reserve park or municipal school reserve will receive a pre-installed chain link fence

along the shared property line. The fencing material and design is governed by the Glacier Ridge Architectural Guidelines, with ownership transferred to residents for ongoing maintenance and care.

3. **Sound Wall Fencing** - Residential lots directly adjacent to an arterial road may have a sound fence installed along the shared property line in order to meet City of Calgary sound screening regulations. The fence will be installed on private property within an easement that will be registered on the title of the lot. The fencing material will be governed by the City of Calgary sound screening regulations and the Glacier Ridge Architectural Guidelines. Ongoing maintenance and care of sound fences on the private yard side is the responsibility of the resident while the public-facing side will be the responsibility of the Residents Association.
4. **Commercial and Multifamily Screen Fence** - Residential lots that share a property line with a Commercial and/or Multifamily lot will have a wood screen fence installed along the shared property line. The wood screen fence may be installed by either Anthem or the Multifamily/ Commercial developer but will ultimately be passed over to the resident for private ongoing maintenance and care of its side of the fence.
5. **No fence** - All other lots do not come with fence and it is up to the resident to coordinate with their immediate neighbours on if and how they would like a fence constructed along shared property lines. We encourage everyone to work together to design a fence but also ensure that the fence meets the standards outlined in the Glacier Ridge Architectural Guidelines.

If there is a discrepancy between this explanation, and the Surface Information Plan, the Surface Information Plan will prevail.

For more information, please reach out to one of our sales teams, as they can walk you through the details lot by lot. Please click here.

Will Anthem plant trees on my property?

Anthem, the community developer, may plant trees on private property within a municipal Utility Right of Way (URW) that is registered on a homeowner's lot to comply with the City of Calgary's Complete Streets bylaw. The location and type of tree is decided by The City of Calgary's Parks. It is important to understand that not all lots can receive a tree due to shallow utility and other below ground conflicts.

What is the Complete Streets Tree Planting Program?

Complete Streets is one of the many reasons why Glacier Ridge is the perfect place to call home. It's an initiative designed to enhance residential streets with added colour, shade and natural protection by planting and caring for trees along public roads.

Anthem, and then the City of Calgary, will maintain these trees. Although excluded, the grass below the trees will grow wild and free until you rein it in with your expert mowing skills.

For more information, email calgary@anthemunited.com (link email), or learn about the program at <http://www.calgary.ca/Transportation/TP/Pages/Planning/Calgary-Transportation-Plan/Complete-Streets.aspx>.
